

### Chrome Support Brackets Art No. 8875

#### Compatible with:

Delta 8860, Swirl 8870, & Ocean 8780

Thank you for purchasing this HiB product.

Please read through these instructions carefully and refer back to them during installation to ensure that your product is fitted safely and that it retains its high quality finish.

Please retain this leaflet for future reference.

**Before installation, ensure that there are no hidden cables or pipes in the wall.**

#### Installation:

1. Attach the rails to the bottom of the basin using a bead of silicone. Ensure that the rails are in line to the back of the basin by holding the basin up against a flat surface (see diagram 1). **Leave the silicone to set for 12 hours.**
2. Position the basin at the desired height, ensuring that it is straight by using a spirit level. Mark the position of the fixing brackets using a soft pencil (see diagram 2).
3. **Before drilling, ensure there are no hidden cables or pipes behind the mounting points.** Using a masonry drill, drill holes in the marked positions to a suitable depth. If drilling through tile, use a ceramic drill bit.
4. Insert wall plugs level with the surface of the wall. If fitting to a tiled surface, wall plugs should be inserted below the tile surface to avoid cracking. *NB. For plasterboard walls, specialist fixings should be purchased, available from any DIY or hardware store.*
5. Hold the basin in place against the wall and bolt it through the holes in the brackets into the wall plugs using the coach bolts provided. For added strength, use washers between the coach bolts and the bracket (see diagram 3).
6. Apply a bead of silicone around the top and side edges of the basin (see diagram 4). **Leave the silicone to set for 12 hours.**

#### Care Instructions

Do not use abrasives or solvents when cleaning this product. Wipe off all water spillages as soon as possible using a soft, damp cloth.

#### Aftercare Service

In the unlikely event that this product should fail please contact HiB customer services, details shown below.
